BUG-0081 — Crash in Notification Handler: Process com.samsung.smarthome terminate...

1. Defect Summary

Defect ID	BUG-0081
Title	Crash in Notification Handler: Process com.samsung.smarthome terminated unexpect...
Severity	Major
Priority	Critical
Status	VERIFIED
Component	Notification Handler
Application	APP-002 — MobileCommunication
Reported Date	2023-09-24
Resolved Date	2023-12-25
Assigned To	ENG-046 — Clara Johnson

2. Traceability

Release	REL-005 — 5.1.9
Test Run	RUN-004 — Regression Cycle 4 — Build 5.0.7
Requirement	REQ-0070 — Recovery — Health Metric Upload
Req Priority	High
Test Case ID	TC-0934
Test Case Title	Test that background sync correctly handles invalid input when the ser...
Execution ID	EXEC-00545
Failure ID	FAIL-0125
Failure Type	Crash
Environment	ENV-010 — High Load Env
Build Version	5.4.8

3. Problem Description

During execution EXEC-00545, test case TC-0934 failed with Crash. The system exhibited crash when the network connection is interrupted mid-flow.

4. Reproduction Steps

1. Assert that database record for entity 'ENT-820' has status='PENDING'.
2. Check server logs for event code 'EVT-7233'.
3. Verify that the UI displays 'Payment approved'.
4. Launch the DigitalWallet application on the test device.
5. Simulate network drop using the network emulator profile 'Offline'.

5. Expected vs Actual Behaviour

Expected	The system should complete biometric verification within the defined SLA.
Actual	The system exhibited crash when the network connection is interrupted mid-flow.

6. Root Cause

Retry logic does not apply exponential back-off; storm of reconnection attempts saturates the gateway.

7. Resolution

Moved network call to background thread; replaced with async/await pattern.
