Requirement Specification

REQ-0100 — Reliability — Audit Logging

1. Identification

Requirement ID	REQ-0100
Title	Reliability — Audit Logging
Type	Reliability
Priority	High
Severity	Trivial
Status	Approved
Version	v1.4
Created	2022-10-17
Updated	2024-01-25
Source Document	SRS-APP-005-v4.pdf

2. Application & Solution

Application ID	APP-005
Application	WearableHealth
Domain	HealthTech
App Version	4.5.8
Solution ID	SOL-001
Solution	Pairing Service
Component	Rendering Engine
Feature	playlist shuffle

3. Requirement Description

The system shall enforce multilingual support within 200ms under standard conditions.

4. Acceptance Criteria

AC-1: The system shall satisfy the requirement within the defined performance SLA (p95 < 500ms).

AC-2: All failure scenarios must return a human-readable error message to the user.

AC-3: All events must be logged to the audit trail with a valid timestamp and user context.

AC-4: The feature must operate correctly in all supported environments (Mobile, Wearable, Cloud).

AC-5: Security constraints: all data in transit must be encrypted using TLS 1.3 or higher.

5. Dependencies

This requirement depends on the Pairing Service (SOL-001) being operational and at version 3.1 or above.
