Requirement Specification

REQ-0229 — UI Behavior — Parental Controls

1. Identification

Requirement ID	REQ-0229
Title	UI Behavior — Parental Controls
Type	Error Handling
Priority	High
Severity	Trivial
Status	Approved
Version	v1.1
Created	2022-10-15
Updated	2023-08-05
Source Document	SRS-APP-006-v2.pdf

2. Application & Solution

Application ID	APP-006
Application	XRPlatform
Domain	XR
App Version	5.4.4
Solution ID	SOL-012
Solution	AR Renderer
Component	Sync Engine
Feature	AR scene rendering

3. Requirement Description

The system shall provide remote diagnostics consistently under low-bandwidth conditions.

4. Acceptance Criteria

AC-1: The system shall satisfy the requirement within the defined performance SLA (p95 < 500ms).

AC-2: All failure scenarios must return a human-readable error message to the user.

AC-3: All events must be logged to the audit trail with a valid timestamp and user context.

AC-4: The feature must operate correctly in all supported environments (Mobile, Wearable, Cloud).

AC-5: Security constraints: all data in transit must be encrypted using TLS 1.3 or higher.

5. Dependencies

This requirement depends on the AR Renderer (SOL-012) being operational and at version 2.8 or above.
