Requirement Specification

REQ-0471 — Recovery — Parental Controls

1. Identification

Requirement ID	REQ-0471
Title	Recovery — Parental Controls
Type	Performance
Priority	High
Severity	Major
Status	Approved
Version	v1.2
Created	2022-03-06
Updated	2023-04-10
Source Document	SRS-APP-006-v1.pdf

2. Application & Solution

Application ID	APP-006
Application	XRPlatform
Domain	XR
App Version	5.4.4
Solution ID	SOL-003
Solution	Sync Engine
Component	Search Indexer
Feature	NFC tap-to-pay

3. Requirement Description

The system shall support multilingual support without data loss under standard conditions.

4. Acceptance Criteria

AC-1: The system shall satisfy the requirement within the defined performance SLA (p95 < 500ms).

AC-2: All failure scenarios must return a human-readable error message to the user.

AC-3: All events must be logged to the audit trail with a valid timestamp and user context.

AC-4: The feature must operate correctly in all supported environments (Mobile, Wearable, Cloud).

AC-5: Security constraints: all data in transit must be encrypted using TLS 1.3 or higher.

5. Dependencies

This requirement depends on the Sync Engine (SOL-003) being operational and at version 3.3 or above.

SYNTHETIC DATA — No real Samsung confidential information
